EER Diagram - WCA Competition Database (Phase 2): 16 entity types (E1-E16), 23 relationship types (R1-R23)

Legend (Elmasri & Navathe EER notation)

Rectangle = strong entity; double rectangle = weak entity

Diamond = relationship; double diamond = identifying relationship of a weak entity

Oval = attribute; underlined = key; dashed underline = partial key of weak entity

Double oval = multivalued; dashed oval = derived; oval with attached ovals = composite

Double line = total participation (min = 1); single line = partial participation (min = 0)

Red label 'ratio (min,max)' sits on each line next to the entity it describes (structural constraints)

Circle 'o' = overlapping specialization; single line from PERSON = partial; cup symbol on subclass lines

COMPETITOR is predicate-defined: [WCA_ID IS NOT NULL]; DELEGATE is user-defined

Recursive relationships show role names (supervisor/supervisee, sub/parent)

Ternary ASSIGNED_AS (M:N:P) links PERSON, ROUND and STAFF_ROLE; Slots is a multivalued composite attribute
